

REMARKS/ARGUMENTS

This case has been reviewed and analyzed in view of the Official Action dated 24 January 2005. In the Official Action, the Examiner has found two inventions, namely, Group I directed to Claims 1-5 drawn to an epitaxial structure of GaN; and Group II directed to Claims 6-10 drawn to a process of epitaxial structure of GaN. The Examiner has required that Applicant chose Group I or Group II for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claims 6-10 and elects Claims 1-5 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
